## CLEVER CHILDREN IN COMIC OPERA

Pollard's will Appear at the Thistle for one Week Commencing June 25th

The wonderfully clever juvenile performers the Pollard Lilliputian opera company will appear at the Thistle Theatre every night next week to present their repertoire of light operas, commencing Monday night with "The Runaway Girl."

The Pollards are already known in Edmonton and will undoubtedly fill their house every evening during their stay. They are booking a great success in Calgary this week and many are being turned away every night, while the "standing room only" sign is the constant legend at the box office.

The company returns with a few new faces in the chorus. All the old favorites will be warmly welcomed on their appearance, especially so in the case of Teddy McNamara, as "Flippin".

The company individually and collectively is better than before, if such a thing is possible. All the costumes and scenery have been brightened up, and the entertainment will be hugely enjoyed by those present.

The stage is under the direction of Mr. Alf. Goulding. He has been connected with the organization for fifteen years, and at one time was the principal comedian.

**MUTINY IN TURKISH ARMY**  
Constantinople, June 20.—Marshall Pefi, Pasha commanding the Turkish troops in Yemen province, whose hands were already full in attempting to subdue rebellious Arabs, has been obliged to deplete his slim stock of ammunition in employing his artillery against his own mutinous troops. Whole companies anxious to get home mutinied and tried to proceed to Constantinople. A stubborn fight between local and disaffected troops ensued. The latter were finally vanquished and surrendered after heavy loss.

## You Will Stick to Our LUMBER

Once you have tried it. Because you can't get so much, so good, for so little money anywhere else. That says a lot and means more. Try us and give us an opportunity to please you. We have

## HALF HOLIDAYS DURING FAIR

Merchants Agree to Close their Stores Every Afternoon while the Fair is Going On

In accordance with the usual custom of some years past, the majority of merchants have agreed to close their places of business at 12 o'clock noon on each day of the Provincial Fair, July 2, 3, 4, and 5. The stores will remain closed for the afternoon, thus enabling the employees to attend the exhibition. The following is the agreement with the signatures of those merchants who have agreed to close.

"We, the undersigned merchants, of Edmonton, agree to close our respective places of business during the days of the Fair, viz., 2nd, 3rd, 4th and 5th of July, each day at 12 o'clock noon, and keep them closed for the remainder of each of those days: McDougall & Son, Revillon Bros., Ltd., McNeaugh & Campbell, Garisby & Lessard, J. H. Muir & Co., John Sommerville & Sons, Limited, Ross Brothers, Limited, Hart & Wager, John I. Mills, Stanley & Jackson, Kelly & Moore, Lundy & McLeod, J. C. Clark, S. F. Mayer, F. Perkins, A. Crystal, The Edmonton Clothing Co., Limited, Blowey, Henry Co., W. J. Walker, Royal Shoe Store, LaRue & Plارد, John Henderson, W. H. Martin, and Hudson's Bay Company.

### SHOCKING FATALITY IN SAWMILL

Three Rivers, Que., June 20.—A horrible accident took place here to-day. While placing a log in proper position to go under the bandsaw Napoleon Martin, an employee of the Farmers' Sawmill Co., slipped and fell against the saw, which caught him by the head and cut his body clean in two.

Montreal, June 20.—James Hackett, accused of the murder of the little Ahern child, and who was convicted by a jury of manslaughter, was sentenced by Chief Justice Lacoste to 25 years' imprisonment.

## COMMISSIONERS GRANT LICENSES

International Hotel on Kintinstown Opposed By Delegation, But License Is Given By Board

The license commissioners held their regular meeting in the city hall yesterday afternoon, for the consideration of quite a list of applications. The only application to receive any opposition was that of Messrs. Hinck & James, the proprietors of the new international hotel, corner of Boyle and Kintinstown streets. A delegation of east end residents, headed by E. T. Bishop, appeared before the board and registered a vigorous protest against the granting of a liquor license to this hotel.

The ground of objection taken waithin the hotel was in the midst of a Galician settlement, and the bar of the hotel would be patronized by these Galicians and made a resort by them. Messrs. Bishop, Blaney and others claimed that the Galicians were very unruly when under the influence of strong drink. A petition was also before the board signed by nine residents of that section protesting against the granting of a license to the hotel. J. R. Boyle represented the proprietors and the license was granted, subject to a final inspection of the premises.

Charles Henry, of Vermilion, was granted a renewal of his wholesale license.

Mr. Lavoy, of Lavoy, was given a license for his new hotel at that place.

Mr. Despins had an application for a tavern license for his inn at St. Paul's crossing, but objection had been raised to the granting of the license because it was near an Indian reserve. The consideration of the application was postponed until the meeting on June 26th.

The application of Mr. Charlebois, for a hotel license at Vegreville, was refused.

The application of H. Cronn, of Cronn's restaurant, for a license, was also refused, the city council having objected to the granting of this license.

### DOUAMA NOT DISMISSED

St. Petersburg, June 20.—The sudden change in the plan on the part of the ministry in deciding not to dismiss the Douama is attributed by constitutional democrats to the discontent prevailing among the guard regiments especially those stationed at Tschakoo Seio. The soldiers have made plain their unwillingness to fight against their own people in event of disorders arising as a result of the dissolution of the national legislature.

**FIGHTING AT CRONSTADT**  
London, June 20.—Correspondents at St. Petersburg telegraph that heavy fighting is in progress at Cronstadt sailors are assembling in the streets. A meeting is in progress. No one is allowed to visit the city and police are taking the most stringent precautions to prevent disorder.

### SOLDIER BOYS IN CAMP

The C. M. R. camp on Great's flats is now in full swing. The Strathcona squadron, under command of Major Fred Jamieson, arrived in camp at noon on Tuesday and "C" squadron from Fort Saskatchewan, under command of Major Aylen, arrived at 5 o'clock in the afternoon. There are altogether over 300 men and officers in camp.

The men were put through the medical examination on Tuesday, and yesterday drill was commenced in earnest under the instruction of Capt. Mackie and Sgt. Jackson. The mounted squad and rifle drill is being taken up at once, in order to put the horses into shape as soon as possible.

## CALGARY WINS BALL SERIES

Defeated Wetaskiwin Team Two Games Out of Three of Very Fast Ball

Calgary, June 21.—Special to the Bulletin.—By winning two games of the fast ball ever played in Alberta, Calgary yesterday wrung the series away from Wetaskiwin, scoring two to one in Calgary's favor. It was a pitcher's battle from the gong in which the Calgary twirler, Crist, had the better of McLaughlin, holding the Wetaskiwin down to four hits.

The evening game was seven to six in favor of Calgary, the cowpunchers getting thirteen hits off Pittman, the Wetaskiwin pitcher. Wetaskiwin made eleven hits off McCarney, who also gave five passes. It was a stick fast all through with the result in the balance to the final innings. Wetaskiwin took the lead in the third with three runs. In the fourth, Calgary got four runs. Wetaskiwin got a lead again in the sixth with three runs and added another in the seventh. In Calgary's half three runs were scored, and the score stood unchanged at the fifth, Calgary seven, Wetaskiwin six.

In the first game of the series, which was played on Tuesday afternoon, by a score of three to one the Wetaskiwin team won. This game was very fast and even. Despin made two of three runs of winning team. Five hits were made by each club. Despin and Berry made three of the five hits. Wetaskiwin scored in the fourth and eighth innings. Calgary scored a single run in ninth, one triple and one single in succession. Pittman pitched for Wetaskiwin and McCarty, pitching for Calgary, struck out ten men. Both pitchers were very steady. Wetaskiwin made three errors and Calgary made four.

### Additional Locals

The improvements on the Jasper House are nearing completion. Two stories have been added to the hotel, and the building is considerably enlarged and improved.

A huge boiler which was being installed by the Edmonton Lumber Co. in their new premises on the flat near the Strathcona bridge upset from the wagon yesterday afternoon, about 300 yards from the mills. Fortunately no one was hurt. The men are busy today rolling it along skids to its position.

The Empress Theatre on McDougall street will open for business on Monday, June 25th, in refined vaudeville etc. They will give four performances each day, two in the afternoon and two in the evening.

The people of Edmonton and Strathcona who occasionally or often travel eastbound, are invited to call in person, write or telephone 115 Jasper ave. east, where the Canadian Northern have opened a city passenger and ticket office. General and particular information regarding the passenger service of the Canadian Northern, and its rail, and lake and ocean steamship connections can be obtained here. "A pleasure to answer questions." Wm. E. Dunn, City Ticket Agent, 115 Jasper avenue east, Edmonton. Phone 525.

### FINED FOR CLOSING TRAIL

An interesting case to the general public came up for trial before Mr. Stuart Wade, J. P., yesterday in the police court. Mr. Geo. Hensall, who owns the south east quarter 51-34, closed up the Hay Lake trail which crosses this quarter section. The trail has been used since 1855, if not longer. It was owned by the Dominion Government in 1894 and transferred from the Dominion Government to the Territories in 1897. Evidence was submitted to show that this trail was the only feasible route, and the court held that the defendant had no right to obstruct a public highway and fined him fifty dollars and costs, or thirty days.

This morning the counsel for the defendant issued a writ of prohibition to prevent the magistrate from receiving further evidence on the case.

Yesterday morning a similar writ was issued to prevent Magistrate Wade from hearing the case at all, but Judge Harvey ruled that the Magistrate had power to try. The case will come up again to-morrow.

## GIVE REPORT ON ENGINEER

No. 115, Which Caused Much Heated Debate in the Council on Tuesday Night

The following is the Commissioners' Report No. 115, on the city engineer, which was brought up in the council on Friday last, the 15th, and laid over until the engineer could be present.

The Commissioners seem it right to refer to the statement read in council at their last meeting, which Ald. Griesbach said he had received from the city engineer.

1. Re telephone question.

Mr. Keely wished to go to Chicago himself to get expert advice and arrange for the purchasing of material for the telephone system. We vetoed this suggestion as it would have left the city in the meantime without a responsible head for the present work.

In regard to his depreciation of Mr. Miller's ability we would like Mr. Keely or anyone else to produce evidence in this respect. Mr. McLean's capabilities are well known and well assured and it seems to us unreasonable that he should have attached himself to an incapable man as a partner.

In regard to the statement that this is a "political job," we fail entirely to understand what is meant and would like very much that the council should insist upon an explanation.

2. Sewers.

The engineer has been urged several times to get on with the necessary plans, profiles, and details for this work, the plans, estimates, etc., of which were finally accepted by the council on 3rd April. On May 11th Commissioner Harrgreaves further wrote to the city engineer that he was going away for a few days and suggesting that all the particulars might be ready for advertising for tenders in about ten days. He also said, "I would like to see profile before inking it in," as we had previously given him the sewer question on much consideration. Mr. Harrgreaves requested Mr. Keely to have Mr. Tompkins levels checked over.

To shew the necessity of thus looking at profiles, Mr. Harrgreaves states that the invert (bottom) of sewer on Jasper on Fifteenth street, which ultimately would have to be extended to the Great estate, was shown 9 feet deep only.

On Mr. Harrgreaves return it was found that the levels of the northwest part of the city at the limits had not been checked, which was absolutely necessary in order to arrive at the correct depth at the corner of First and Edmonton. He mentioned this matter and we understand the levels were taken.

On May 30th the matter was still dragging on. Commissioner Harrgreaves wrote the engineer, "Bettler have profiles, specifications, plans, etc., ready as quickly as possible in order to obtain tenders for Rat Creek sewer system."

On Wednesday last, 13th inst., the plans were received by us. They are not yet approved because of size being less than as proposed by Commissioner Harrgreaves. No catch basins are shown on plans, no detail drawings of sewer angles and no specifications are given for sewers south of McKenzie avenue. We have asked for these and are still waiting.

Mr. Keely's statement that a week was spent in arranging is untrue. Commissioner Harrgreaves simply pointed out to Mr. Keely the basis on which his computations were based and his authority for same. This took about five minutes and not a week, and is not a justifiable reason for delay in his filing of the same for consideration.

3. Reinforcement of the Namayo avenue sewer outlet.

This is the c. o. surface box temporary outlet put in under Mr. Chapman's original scheme which requires replacing as there is considerable smell rising from it and it is generally in poor shape.

4. The river bank here is liable to move more or less at times; this is shown by the old box being slipped away from the manholes. It is usual for such pipes to take wooden pegs and tubes. If these come loose the pipe were placed the slightest slipping of the ground would open the joints and the sewage might escape at many points and the sewer get out of alignment. With continuous pipe there is no danger and the position of any slip can easily be located. The way to repair is to cut off the pipe and fit another.

5. Statement that there was a shortage of sewer pipe. There was a wait for 6 in. pipe a couple of months ago but this question of supplies is in the hands of the engineer. He should be advised of these matters, bearing one of his most important duties.

6. Remark that he had increased the sewer connection fee against the wishes of the commissioners, etc.

It is a fact that no communication respecting the number of pipe gauge was submitted to the engineer. He has been entitled as the discretion of the engineer, who has never asked us at any time in regard to the employment of men. We had previously to his taking up his position appointed a foreman on sewer connection. He did a good job well and smoothly in conjunction with the plumbing and sewer inspector to carry on the work.

7. Borrowings supplies from Strathcona.

Two months or so ago Ross Bros. tender was accepted for a quantity of sewer goods, corporation cocks, etc. They stated it would be some time be-

fore their material arrived, and in the meantime they would keep us going with some similar supplies of which there was an overplus at Strathcona. This is entirely Ross Bros. affair. The city has borrowed no material from Strathcona.

The question of supplies being entirely in the province of the engineer, his duty is to make out regulation for same and mention anything he knows of. It is a fact that the engineer has not once reported to the commissioners any deficiencies in supplies or quoted the price of same.

8. Cheap engineer.

The commissioners have never been able to get satisfaction in regard to the price of \$150 per barrel, as stated by Mr. Keely. We called for tenders on April 16th and the result was submitted to the council. In February we had a special offer from the Western Supply Co. of Winnipeg at \$4.40 a barrel as the rock bottom price then. We have just learned that Mr. Keely has abandoned himself today without leave; we understand he is gone to Calgary. We find that he has taken with him the detailed drawings of the proposed sewage system and we are at a loss to place any other responsible person in charge of this plan. If this is the case, we ought to be notified of it at least.

ENGINEERS' REPLIES.

The engineer replied categorically to all the above.

No. 1. He said that he had suggested that he or someone else of the city staff should go to Chicago instead of bringing the expert here at a large expense. Regarding the "political job," he said that he had no doubt in his mind if he had smoothed things over with the views of the commissioners; but if he had and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. He had no objection to doing this if he could get the views of the commissioners; but if he had not and accepted the commissioners' ideas instead of his own as to the engineering features of the city work that presented itself to him he would be surrendering his principles as an engineer. # BANK OF MONTREAL.

ESTABLISHED 1817

Capital all paid up	\$14,400,000
Reserve Fund	\$10,000,000
Assets	\$158,232,409

## HEAD OFFICE: MONTREAL

Rt. Hon. Lord Strathcona and Mount Royal, G.C.M.G. - HON. PRES.  
Hon. Sir. George A. Drummond, K.C. M.G. - PRESIDENT  
E. S. Clouston - VICE-PRESIDENT AND GENERAL MANAGER

Branches and agencies at all principal points in Canada.  
Also in London, England  
New York, Chicago and Spokane  
And Newfoundland.

Traveller's Circular Letters of Credit And Commercial Credit Issued for use  
in all parts of the world  
Collections made on favorable terms.  
Drafts available at all points in the United States, Europe and Canada  
and in Hong Kong.

Interest allowed on deposits at current rates.  
E. C. PARDEE, Manager

Edmonton Branch

## Telegraphic Brevities

World Wide Wirelets of Happenings  
In Our Own and Foreign Lands

Winnipeg, June 19.—Among the arrivals in the city to-day are 170 Scotch ploughmen from Aberdeenshire, Scotland. The party is under the direction of Alex. Langmuir, of Bankhead, Stonehaven, Scotland, who before returning to the old land, took up immigration work fifteen years ago on Carberry Plains as a practical farmer. During the past twelve months Mr. Langmuir has sent almost 500 immigrants to Canada. In the party brought out by him at the present time were 210 people.

Sherbrooke, Que., June 19.—Two men, John Neville and Joseph Croreau, were drowned at Bromptonville this morning. They had gone up the river to release a log jam when their boat was carried down stream in the strong current and upset.

Morden, Man., June 19.—Voting on a by-law to grant a right of way and station grounds in the town at a cost of \$3,000 to the Midland Railway took place to-day and resulted in only four votes being cast against the by-law.

Prague, Bohemia, June 19.—A disastrous cloudburst occurred yesterday over the communities of Salean and Smichow, in the valley of the Sezava river. Sixty houses were demolished, dams and bridges were swept away, fields were laid waste and much live stock perished. Seven persons are missing.

Port Arthur, Ont., June 19.—The long looked-for strike of carpenters was instituted this morning and not a man is at work. The Builders' Exchange, anticipating trouble, have been advertising in eastern papers for men, and this action on the part of employers is said to have hastened the strike. The men demand a minimum of \$500 a month.

London, June 19.—In the Ascot stakes Fradelia at 100 to 8 won; Outbreak at 100 to 1 was second; and Saltatre at 100 to 6 was third. Twenty-two horses ran.

Paris, June 19.—The Sultan of Morocco has accepted the terms of the Anglo-French Convention. The boundary in dispute is restored to France.

London, June 19.—The Argonaut crew has arrived and all are in fine condition, having kept up practice during the voyage.

London, June 19.—Earl Meth has received a letter from Premier Scott of Saskatchewan, expressing the loyalty of the new province to the empire.

## PROBABLE CHANGE IN INSURANCE LAWS

Ottawa, June 15.—When the committee on banking and commerce met today to consider an act to incorporate the Sterling Life Assurance Co., Hon. W. S. Fielding made an announcement affecting insurance bills.

He said that owing to the enquiry which is now being made into insurance, he intended asking parliament to make whatever bills were passed this session subject to any general legislation that may be found necessary as a result of the investigation.

"I think it better to take this course," said Mr. Fielding, "than to prevent bills going through. I will make a statement in parliament to this effect. It will not do for these companies which we are chartering this session to come here and say they have certain rights which will not make them come under whatever general legislation may be found necessary."

## Calls Agricultural

## Discovery A Fake

Superintendent Black of Agricultural College Has No Faith In Darst Vineless Potato Cultivation

The papers of the Western United States have for the past few weeks been full of agricultural discoveries which promise to revolutionize the production of potatoes. The scheme, which is called the Darst method, is a scheme by which the nutritive qualities of the soil are extracted and made into a thick paste. Into this paste are laid the seed potatoes. All the farmer has to do is to open up the ground at the end of 45 days to the young potato plants, and at the end of 120 days if he wants full grown tubers. Superintendent Black, of the Agricultural College, when asked yesterday as to the scheme, characterized it as a fake.

The Darst method, so called because it was first discovered by W. D. Darst, of Pullman, Ill., goes on the principle that most soil is waste, that bits of real nourishment cling to the gravel, sand, rocks and useless clogs of the earth, and that the potato little by little, soaks up these atoms, throwing out a vine to gather in elements from the air and long roots to draw up the water. This method, the plan extracts from the soil this nutrition, makes a paste of it, lays the seed potatoes on a bed of compost on which the nutritive paste is spread, and after building up a bin big enough to grow a few thousand bushels on an acre of ground, the farmer leaves his bin. If he wants new potatoes he enters the bin in sixty days and takes out his new potatoes; if he wants full-grown, robust potatoes he leaves the

bin alone for 100 or 120 days, and when he is ready to garner his crop he pulls off a board, shovels away his pile of potatoes, and does not even have to wash them, for there is no dirt to soil them.

The potatoes under the new method cluster about the seed potato, as in the old hills, but the tubers are much larger because none of the nutrient is wasted in vines, and since there is no soil the seed does not rot, but after exhausting its "eyes" in starting the new crop, lies dormant, and when the crop is gathered the seed potatoes can be used as stock feed, only their generative powers being exhausted.

"I think it is all a fraud," said Mr. Black. "In the first place it is contrary to the laws of plant life. The idea of extracting nutrition from the soil is to me a enough, but the example of vines spoils the scheme. It is only by vines that the plant breathes and the light and air set up a circulation. Without that circulation the plant cannot absorb nutrition. Potatoes will grow for a short time in a cellar, but they get into spuds and never amount to anything."

This statement that the discovery has been patented Mr. Black characterized as another fake.

"The United States Government will not issue a patent to an agricultural discovery. It is immediately taken over by the government and made public.

I think if there had been anything in the method we would have heard about it."

Cardston Wants

## Water And Light

## By-Law To Raise \$30,000 For Plant

## Carried Without Dissenting Vote

## Cardston Star: The municipal election on the proposed by-law for the borrowing of \$30,000 for the construction of water works and electric light systems was held last Friday. Sixty-three of the qualified electors registered their opinions and not a vote was cast against the passing of the by-law. There was not a spoiled ballot in the box. The election was carried on in a quiet, orderly manner and everyone seems gratified with the results. Possibly two thirds of the available votes were polled, the remainder being out of town.

Paris, June 19.—The Sultan of Morocco has accepted the terms of the Anglo-French Convention. The boundary in dispute is restored to France.

London, June 19.—The Argonaut crew has arrived and all are in fine condition, having kept up practice during the voyage.

London, June 19.—Earl Meth has received a letter from Premier Scott of Saskatchewan, expressing the loyalty of the new province to the empire.

London, June 19.—In the Ascot stakes Fradelia at 100 to 8 won; Outbreak at 100 to 1 was second; and Saltatre at 100 to 6 was third. Twenty-two horses ran.

Paris, June 19.—The Sultan of Morocco has accepted the terms of the Anglo-French Convention. The boundary in dispute is restored to France.

**St. Albert Waiting  
For Transportation**

Citizens Watch Bridge Gang on Sturgeon and Look Forward to Day

When Train will Steam In

The C. N. R. bridge gang, under the direction of Foreman O'Connor, is at work on the new bridge spanning the Sturgeon River. Two pile drivers are at work and the work is progressing rapidly. The citizens are anxiously awaiting the arrival of the first train.

Miss M. Sullivan, of Stratford, is the guest of the Misses Morina.

Mr. William Fitzgerald has received an invitation from the Prince to take part in the reception to be tendered His Majesty upon the occasion of his visit to Ottawa next fall. Mr. Fitzgerald had the honor of being one of His Majesty's body-guards in 1864 when the present King as Prince of Wales visited Canada.

Miss M. McDonald, Ray, O'Keeffe, Doan, and Meers. H. B. Dawson, Jas. F. J. Collison, A. Gorman, Chas. O'Connor, M. Hogan, G. O. Gray were entertained at Mrs. Stark's residence on Mill street east on Sunday evening.

St. Jean Baptiste Society will celebrate this year at St. Albert on Monday, June 25. A good time is expected.

Jas. T. J. Collison spent Sunday at St. Albert.

A large number of our citizens took in the circus at Edmonton Monday last.

Miss W. McDonald is spending a few days with Mrs. Dr. Tierny.

H. B. Dawson, one of our enterprising merchants, has greatly improved the appearance of his store by putting in large plate glass windows, and a fresh coat of paint on the outside.

North Portal, June 19.—During May 34 cars of "settlers" effects passed through North Portal from United States points into Western Canada. The following are the States represented:

North Dakota 135, Minnesota 57, South Dakota 47, Iowa 33, New Mexico 28, Wisconsin 25, Illinois 16, Nebraska 12, Montana 10, Kansas 8, Michigan 5, California 4, Indian Territory 2, Missouri 2, Ohio 1, Total 384.

## NEW YORK DENTISTS

MACLEOD BUILDING, JASPER AVE.

Best quality of work and materials, with a written guarantee on all work. Lowest cut rate prices. While the matter of cost is an important consideration when having dental work done, it is secondary to quality. You get both quality in full measure and the lowest cut rate prices at our parlors. Every patient receives the attention of a Skilled Graduate Dentist who makes a specialty of one particular branch of dental science.

All Work Is Done Without Pain.

Out-of-town patients when writing in advance for appointments can have work done while in the city for the day.

We wish to inform the public that we have added to our dental staff

Dr. F. Le Roy Buggins,  
Crown and Bridge Specialist,

recently of Calgary. Dr. Buggins is an expert in this particular branch, having practised for the past ten years in the Cities of New York, Detroit, Seattle and Vancouver.

Examinations and Estimates Free.

## Championship Polo For Fair Week

Visitors To The Exhibition Will Have Opportunity To See Edmonton And Calgary Play King Of All Games

On the evenings of July 2nd and 3rd, the first two days of the great provincial fair there will be played in connection with the exhibition, a game of polo, between the Edmonton team and the team from Calgary, which is acknowledged to be the championship team of Canada, if not of the continent. The game will be played early in the evening, and should prove a big attraction. The members of the Calgary team are C. George Ross, captain, and halfback, J. Dean-Freeman, G. H. Nixon, and H. W. Niven, forwards. This team has been victorious over Toronto, Montreal, Buffalo, and Rochester teams and will this year attend a tournament in the New England states.

Polo is a game with which few of the citizens of Edmonton are acquainted. It is played on horses, with a ball made of bamboo root about the size of a croquet ball. The players use long-handled mallets, and the rules of the game are much the same as in football. The idea is to put the ball through the goal posts, which are 300 yards apart. The off-sides are as in football. The players line up in the centre of the field, the three forwards facing each other and the fourth man of the team playing half back. The referee starts the game by throwing in the ball from the side. Each chukker lasts ten minutes, and a full game consists of 6 chukkers. Each player plays two chukkers, each pony playing two chukkers, with a rest of two chukkers between.

The captain of the Edmonton team is Dr. C. Glendinning. Practice is held each evening on the exhibition grounds.

Washington, June 19.—The State Department has received word of the murder of two British subjects thirty-two miles from Amoy, China. Great Britain has demanded an immediate investigation, punishment of the murderers and reparation for the crime.

## England Has A

\$6,750,000 Ship

Most Costly Ship In The Navy Has Just Been Launched At Davenport

Devonport, June 20.—The armored cruiser, Minotaur, of 14,000 tons, was launched from the dockyard here Thursday. The vessel was christened by the Countess of Craven.

The Minotaur is 490 feet long, 74 feet beam, draws 26 feet of water, and has 2,000 indicated horsepower, giving her an estimated speed of 23 knots. The armament of the new cruiser consists of four 9.2 inch guns, ten 5.5 inch guns; thirty guns of smaller calibre, and five torpedo tubes. She has an armoured belt four to six inches in thickness, will have a crew of 750 officers and men and can carry a thousand tons of coal. The Minotaur will have cost about \$6,750,000 when completed.

## Another Industry

For Calgary

Alberta Biscuit Co. Will Build \$50,000 Factory In Southern Metropolis

Calgary, June 20.—The Alberta Biscuit company are starting the construction of their manufacturing plant in the west end, at the corner of Fourth street west and Ninth avenue. The company has four lots, which were purchased from the city for the sum of \$1,000.

The original intention was to construct a building 50 feet by 100 feet, but it has since been decided to build larger. The factory will be 60 feet by 120 feet, a two-story structure with an annex of 50 feet by 60 feet.

The tenders for the machinery will be opened on July 1. About a dozen have been received to date.

The building itself will probably go into the hands of local contractors, and the tenders will be opened inside of two weeks.

The total cost of factory and plant will probably be in the neighborhood of \$50,000.

The work is to be completed and the premises ready for business by October 1.

E. B. Johnson, the factory manager, will be in Calgary by July 15. Three men have already applied for the position of foreman.

## Bargains In The

### STAPLES DEPT.

To centre your interest on the price concession alone, in the Staples Department, leaves you conscious of but half the strength of this offer, its greater might lies in the character and value of the goods. See them, and then make your own estimate of the true value of them and you will buy, for they are wonderful value.

There's 5 pieces of 25 inch wide Prints in all the popular colored stripes; regular Revillon price 8c. Friday 6c.

5 pieces of 25 inch Prints in different colored polka dots on white ground; Revillon's regular 8c. Friday 6c.

2 pieces of fancy striped Wrappettes, popular colors on cream ground; regular Revillon 35c. value. Friday 25c.

5 pieces 28 inch striped Flannelette; light and dark stripes; regular 7c. Friday 6c. yard.

## REVILLON'S

### Department Store

### THIS

is just an advance notice to the Men that there will be something of extraordinary interest to them in Friday's issue of this paper on this page.

### It Will be a Winner

### Watch for it in Revillon's Ad.

## Friday Next is, as Usual, Ladies' Bargain Day.

But the price cutting that has been done on these goods make it an impossibility to duplicate either in the goods or price.

2 pieces of 54 inch Tweeds, unprecedented value at \$1.00; Friday .65c.

1 piece of 42 inch dark mixed Tweed regular 60c.; Friday .37 1/2c.

1 piece of 42 inch blue mixed Tweed regular 50c.; Friday .35c.

1 piece of black and white shepherd plaid, regular 75c.; Friday .45c.

1 piece of red and black shepherd plaid, regular 75c.; Friday .45c.

Friday is therefore your opportunity. These goods will be on the bargain table from 10.00 a.m. to 12 noon. Then there are the bargains in silks.

2 pieces of beautiful Peau de Soie, regular \$1.25 value; Friday .99c.

And still another piece of Peau de soie will be cleared at .75c.

These are just the goods you want lots of for the warm weather.

There will also be a quantity of remnants of dress material in lengths from 2 to 5 yards, in all the most popular colors and black.

Revillon's Bargains At Prices To Clear

## BARGAINS AT REVILLON'S ON FRIDAY, JUNE 22

# Mundare

Offers greater industrial and investment opportunities than  
any other town in Western Canada.

## FOR BUSINESS MEN

Because--- Mundare is located on the main line of the Canadian Northern Railway, 58 miles East of Edmonton. Four passenger trains every day.

Because--- the Government Road now being built into Mundare will make it the trading centre and shipping point for the entire Lake Whiford and Beaver Lake Districts, besides the immense country north of the Saskatchewan River.

Because--- it is the natural distributing point for the interior towns of Pakan, Andrew, Whiford, Shandro, Beaver Lake, etc.

Because--- for a number of years the country tributary to Mundare has been thickly settled with a thrifty and prosperous class of people. You won't have to wait for trade--It's there now.

Because--- there are openings in Mundare for EVERY LINE OF BUSINESS. But you must act quick.

## For Speculators

Because--- Mundare is growing rapidly and advance in real estate values the world over, is based solely on increase of population.

If you want to get in on Mundare you'll have to hurry.

ONLY A FEW DESIRABLE LOCATIONS LEFT.

LOTS \$100 UP.

## JINGLES AND JOKES BY THE PHONEYMEN

THE RULING PASSION  
London, June 20.—The winds of  
the field of the Empyrean,  
On the shores of the paper sea,  
I strolled in a far-off azon  
In the days of the things to be.

The sky was of lapin lazuli,  
And the sun in a golden mila  
Peeped like an opening rose  
From a vast amethyst.

The sphere in the void hung idly,  
The winds had sunk to sleep,  
And the wings of eternal silence  
Were folded above the deep.

There I saw a lonely golfer,  
The last of his race, methinks,  
And he wailed because he was bunkered  
On the everlasting links!

CY IN THE REPAIR SHOP  
Toronto Star

Cy Warman, the author, came up  
from St. Catharines this morning "to  
secure fresh socks, and a new celluloid collar," he said, and then to "go  
back to the restful rejuvenating plant  
by the banks of the Old Canal."

Asked if he was in trouble, he answered,  
"Oh, not much in particular, only I  
had noticed for some time that my  
link-lifters were losing their elasticity;  
they were clinkers in my firebox, my  
bulldozers were rattling, and there  
was a nasty pound in my main driving  
box, and there was crowning calamity,  
just when I had struck my nerve,  
or nerves rather, when meager, mental equipment was all  
a-quiver. I stooped to help the plumber  
lift a radiator through the bathroom  
window and broke my back. The

doctor said I would never walk again,  
but St. Kilkenny in two seconds  
"When the bionic captain of the  
cruiser ship Wailand got me aboard he  
coupled me up and turned me over to  
the ebony sight-of-hand man, who  
gave me the submarine massage, put a  
new spring in my heel and a new song  
in my mouth, and now I'm going back  
to the golf course."

So saying the cheerful and versatile  
literary and locomotive engineer  
swung into a Grand Trunk train and  
went down the line.

A SPECIAL FAVOR  
A young and smart-looking Set  
clergyman was to preach a "trial" ser-  
mon in a strange church. Fearing that  
his hair might be disarranged or that  
he might have a smudge on his face, he  
said to the sexton, there he be no mir-  
ror in the vestry?

James disconnected and after a few  
minutes returned with something under  
his coat which, to the consternation  
of the divine, he produced in the  
form of a bottle, saying:

"Ye mauna jet on about it, meenster,  
for I got it as a special favor; and I  
wadna ha'e got it at all if I had a  
told them it was for you."

Don't shoot at the telephone. If you  
are the wrong number, there is no  
reason why you should act like it.

Count Witless has been taking the  
cure at Vichy, but whether he has been  
successfully inoculated with the anti-  
bomb virus time and opportunity alone  
can tell.

One does not need to be a prophet to  
see what the girls and youths of Lou-  
isiana would do with the proposed law  
forbidding men under 24 to go court-  
ing.

Hydraulic mining is to be introduced  
in the Cobalt region, thus settling once  
and for all the problem of making use of all  
the water in the stocks.

## STRATHCONA NEWS ITEMS

The Bulletin's Daily Budget From the Sister Town

Strathcona, June 20.—The Strathcona council held their regular meeting last evening in the council chamber. President Mayor Shepherd and Aldermen Elliott, Douglas, Mackenzie, Richards and Cowles. The minutes of the last meeting were read and confirmed.

The following communications were read by the Secretary-Treasurer:

Mrs. F. E. Tofield re resignation as matron of hospital.

R. Sheppard re thanks from Strathcona branch of Alberta Farmers' Association for use of town hall.

American Foundry Co. re account of \$42.

R. Palmer, pay roll, re wages and price of outfit.

Ontario Wind Engine and Pump Co. re estimates.

W. H. Clark & Co. re price of poles, arms etc.

R. R. Jamieson re sketch and plans of high level bridge.

Watrous Engine Co. re check.

Canada Foundry and General Electric Cos. re check value.

Revillon Bros. re cotton waste.

Alex. Bruce, re by-law and debentures.

Brackman & Ke Milling Co. re bridge.

Potter & McDougall, re Policeman Harris.

Mr. Tillman, Edmonton, re situation as engineer.

Petitions four in number were received for sidewalks.

The communications were received and disposed of as follows: Miss Tofield's resignation accepted and an advertisement to be inserted in the papers for a matron for the hospital at a salary of \$45 a month. Communication from American Bank Note Co., Ontario Wind Engine Co., W. H. Clark, R. R. Jamieson, Watrous Engine Co., Canada Foundry Co., Revillon Bros., Alex. Bruce, Oster Hammond, Norton, and M. Tillman, to be filed. Communications re petitions, R. Palmer and B. & K. Milling Co. referred to Public Works committee. Communication of Potter & McDougall to be answered.

Bills and accounts—Bruce Thomas \$5, Canadian Westinghouse Co. \$55, Plaindealer \$98.10, A. H. Richards & Co. \$61.68; G. W. Williams \$3.50, Express Co. \$1.25, Edmonton Iron Works \$30, McLean & Co. \$9.26, A. C. Beaton \$6.78, F. R. freight \$163.71, City of Edmonton \$92.00, Green & Elliott \$2.00, W. H. Clark \$111.15, McCarthys and Westbrook \$22, McCallum & Westbrook \$17.85, time sheet \$10, Chronicle \$9, W. E. Ross \$6.75, Ed Hollin \$1, Strathcona Coal Co. \$173.00, S. Q. O'Brien \$1.22, Canadian Pipe Co. \$1405.10, John Walters \$23.92, Dietz & Main \$176, W. H. Sheppard \$20, Dietz & Main \$391.20, Aldermen Richards and Cowles moved that the above accounts be referred to the finance committee and if found correct be paid—Carried.

Much discussion followed on the subject of sidewalks, in which the whole council and Engineer McLean took part.

The following applications for the position of electric lineman were read:

A. G. Harrison, A. Wilkinson, Edmund E. Voas, Percy Bertram, Geo. Seid, Edmonton; W. Stollery, Geo. E. Connel, S. M. Mortimer, Strathcona; Wallace Johnson, Morris, Man.; Anthony Huicamp, Regina; Stephen Clotter, Cooking Lake; A. Saddington, Winnipeg.

After the subject was well debated the above applications were on motion of Aldermen Mackenzie and Elliott referred to the Fire, Water and Light committee and the town engineer, who were given power to act.

Mayor Sheppard reported re damage to the Anderson property from flow of water on the property from the town drain. He stated that they had gone over the ground in dispute and decided there was a grievance, and that the committee had allowed Anderson \$300 damages in full of all claims against the municipality. Aldermen Mackenzie and Elliott moved that the mayor's report be received and adopted. —Carried.

The mayor also reported that he had a conference with the mayor of Edmonton re high level bridge and telephones and that the latter had agreed to confer with his colleagues and notify the municipal council as to time and place of a joint conference on these questions.

Policeman Harris was present and addressed the council re bus drivers and their actions at the station. He stated he had spoken to C. P. R. Superintendent Jamieson about the bus drivers and the latter had informed him that the bus men had no right to leave their buses and go on the platform and solicit baggage and passengers. He said, too, that he had not exceeded his powers as a policeman in his dealings with Potter & McDougall's men, and that the bus men would be arrested in Calgary if they acted as they do in Strathcona.

The council discussed this affair, and the concensus of opinion was that the

policeman was fully justified in his dealings with the bus men.

Discussion came up on the necessity of getting the town books prior to the election of 1906. In proper shape as a basis or starting point for the present secretary. Alderman Douglas and Elliott moved that the finance committee make the necessary arrangements to get a competent person to classify and arrange the town accounts prior to Jan. 1, 1906, on a system.

Alderman Richards and Douglas moved that the solicitor prepare a by-law for \$16,000 for town assessors, debentures to be issued at the rate of 4½ per cent. —Carried.

Town Engineer McLean stated that they had tested one sample of coal furnished by the Canada Foundry Co. and found it to be good. The samples would be tested at once and the result given to the council.

A general discussion followed re water and sewer connections with the hospital, after which council adjourned on motion of Aldermen Douglas and Richards.

Cattle Cured

### Of Tuberculosis

Experiments At Ottawa Experimental Station Show Remarkable Results

Charlottetown Patriot: Dr. J. G. Rutherford, Dominion veterinary inspector and formerly member of parliament was in St. John last week.

Dr. Rutherford's tour included a visit to Napan, where some time ago tuberculosis was found to exist among the cattle on the model farm. The cattle have now been sent to Ottawa, where experiments are being made with them, and where they are undergoing similar treatment to human beings suffering from consumption, and a marked improvement in their condition has been noted. Some of them have now almost entirely recovered.

While not wishing to cause unnecessary alarm, Dr. Rutherford says that the number of tubercular cattle in the Maritime provinces is very large, although perhaps not much worse than other countries with similar climate and conditions which cause the cattle to be confined in barns such a large proportion of the year. As to the danger to humans which results therefrom, Dr. Rutherford said that this was a much-discussed question, over which there is still considerable doubt. Milk from an animal in the later stages of the disease he considered dangerous, especially to young children. In regard to the meat, he said, is hardly as great as is generally supposed, the part being nearly all removed by cooking. To an adult in good health the risk is practically nil.

Bills and accounts—Bruce Thomas \$5, Canadian Westinghouse Co. \$55, Plaindealer \$98.10, A. H. Richards & Co. \$61.68; G. W. Williams \$3.50, Express Co. \$1.25, Edmonton Iron Works \$30, McLean & Co. \$9.26, A. C. Beaton \$6.78, F. R. freight \$163.71, City of Edmonton \$92.00, Green & Elliott \$2.00, W. H. Clark \$111.15, McCarthys and Westbrook \$22, McCallum & Westbrook \$17.85, time sheet \$10, Chronicle \$9, W. E. Ross \$6.75, Ed Hollin \$1, Strathcona Coal Co. \$173.00, S. Q. O'Brien \$1.22, Canadian Pipe Co. \$1405.10, John Walters \$23.92, Dietz & Main \$176, W. H. Sheppard \$20, Dietz & Main \$391.20, Aldermen Richards and Cowles moved that the above accounts be referred to the finance committee and if found correct be paid—Carried.

### NOTICE TO HOUSEHOLDERS

Under the Amendment to the City Charter made at the last session of the Provincial Legislature the exercise of the franchise in civic elections may be secured by any household on the following conditions, viz.:

"before the first day of July in the then current year, that for a period of at least three months prior to the 1st day of July he has bona fide resided in the City and during the said period has been and still is a bona fide occupant of premises therein as tenant, lodger, owner, or otherwise, and in the possession of the premises, and upon producing the receipt of the Secretary-Treasurer showing the payment of 15.00 as 'Householder's Tax' shall be entered by the Assessor upon a list to be called the 'Householder's Roll' and the same shall be exempt from the payment of a poll tax for the then current year."

Householders failing to comply with the above conditions cannot exercise the franchise in municipal elections for the ensuing year, as their names will not appear on the new revised Voters List which cannot be altered after confirmation.

EDMONTON

### LOCAL

In order to reach the News or Editorial rooms of the Bulletin, ring up Phone No. 450

—Mr. A. Finlayson, of Bottineau, N.D., is in the city in connection with the business of the new Edmonton saw mills.

—Henry Parsons, formerly engineer on the city steam roller, has moved out to his homestead at Lac Ste. Anne, and intends to reside there permanently. He filed a month ago for a quarter section of the best land in the district right at the edge of the lake, and he says the other homestead land is being taken up rapidly. The C. N. R. will pass close to Lac Ste. Anne on its way west from White Horse Lake.

### SOCIAL & PERSONAL

Mrs. P. T. Butchart, Fifth street, will not receive on Friday of this week. Mr. and Mrs. Morton left last night for Vegreville.

Miss Sommerville has returned from visiting in the States.

Dr. J. K. Barrett, of Winnipig, is registered at the Windsor.

Mr. Osborne Adamson returned yesterday from England, where he was called some weeks ago.

Mr. A. J. Toomie, of The Dalles, Oregon, is in the city this week with a view to location.

The officers of "A" squadron, Canadian Mounted Rifles will be at Home at the military camp to their friends after 4:30 p.m. on Saturday, 23rd inst.

Mrs. F. M. Davies, Seventh street, will receive Friday, June 22nd, and not again until the first Thursday and Friday in October.

Mr. Swanson, accompanied by his bride, arrived on yesterday afternoon's train from the south, and are guests at the Alberta.

Mrs. J. L. Studholme, and children, left on Saturday for Winnipeg and other Manitoba points. They will be absent about three or four months.

Col. A.C. Macdonell, D. S. O., Winnipeg, is the commanding officer in charge of the annual camp of instruction in connection with the recently organized regiment of Canadian Mounted Rifles.

The first of a number of social events in connection with the annual camp of instruction will be held by "A" squadron, Canadian Mounted Rifles, on the Hudson's Bay flat in the west end of the city on Saturday at 4:30 p.m.

Word was received in the city yesterday of the death of the father of Mrs. Frank Sommerville at Portland, Ore. Mrs. Sommerville went to Portland some time ago, on receiving the news that her father was ill.

### MARRIAGGI CAFE

The Marriaggi Cafe opens this afternoon at 5:30 in the old post office, Jasper avenue. It is under the management of Mr. John Hart, late of Lethbridge. Mr. Hart has fitted up these premises in the most approved and up-to-date style. The dining hall has fine tables and four stalls draped with beautiful chenille curtains. The linen is brand new direct from Greenshields & Greenshields, Montreal. The kitchen has a large steel range with heaters. The pantry contains a large refrigerator where everything is kept in perfect cold storage. Mr. Hart comes highly recommended by the business community of Lethbridge as a man of advanced business methods. His chef is Mr. Martin Gardner, who has been with Mr. Hart for years and knows his business. Before coming to Alberta Mr. Hart was in business in Boston, and Great Falls. All his help is what he terms "white."

Clark's orchestra will render selections throughout the entire evening. After today the cafe will open day and night. Dinner will be served from 5:30 p.m. to 8 p.m.; lunch, 11:30 to 2 p.m., while short orders can be had at all hours. Ladies coming downtown in the afternoons to do their shopping or visiting will no doubt find this a delightfully appointed place where they may lunch in quietness and seclusion. The public will find Mr. Hart a genial host, and up-to-date caterer.

### CONGREGATIONS WAITING FOR PREACHERS

Prince Albert, June 20, 1906. — The synod of the diocese of Saskatchewan closed its session this afternoon. In the morning the question of a university for Saskatchewan with headquarters in St. Albert, was discussed. The need of a college is felt from the fact that it is impossible to get ordained ministers. Students can be secured from colleges in Ontario during the summer, but ministers are needed. Archdeacon Lloyd stated that within two years no ministers could be secured from St. John's, Winnipeg, and no hopes could be held out by Toronto and Montreal, as those about to be ordained were spoken for ahead. There were already 200 entries opened up and no clergy.

Standing on the river bank of Fifteenth street a magnificent view of the camp is obtained. The tents are pitched on the flats extending from below Fifteenth street westward to the Great Estate. In this expanse is a wide stretch of green, outside the line of tents, and it is a sight worth seeing to watch the troops as they line up on the parade grounds for their daily drill, and are put through the various manoeuvres.

### ALBERTA COLLEGE ANNUAL REPORT

The Board of Alberta College held its annual meeting on Saturday afternoon last. There was a good representation of the members present and from every standpoint the meeting was one of the most enthusiastic and optimistic in the life of the college. The Faculty's report to the Board showed an enrollment for the entire year in all departments of 313 students. This number does not include those persons who for a part of the year took lessons in the College in mandolin or guitar. As this branch of study ceased to be a part of the college work its students were not counted in the roll.

The treasurer's report was most encouraging, which, in brief, showed that the present addition was built and such an amount of money raised as notably provided for the cost of the new wing but left the Board \$1200 better off than it was a year ago.

The bursar's report showed that from the current account alone over \$24,000 was expended in Edmonton during the year. The current account showed a small balance on the right side of the sheet.

Several changes will take place in the staff. The Board accepted with regret the resignation of Mr. W. V. Newton, B.A., M.Sc., and instructed the secretary to give Mr. Newton the best letter of recommendation he could frame. As a mark of their respect for his zeal and devotion the Board unanimously granted him a bonus on his salary. It is the intention to appoint a new teacher in Moderns, two in the commercial work and one or two in musical work. The Board is on the lookout for a strong young man to take the place of Miss Webster, who is going abroad to study. The selection of these members of the staff was left to the executive committee.

A hearty vote of thanks was tendered to the Lieutenant Governor of Alberta for the scholarship donated by him to the College.
